

IN-FORM ELECTRICAL
DATA COMMUNICATIONS

COVID Safe for Business

Business trading amidst the COVID-19 Pandemic may prove challenging. To assist with business's re-opening or general on going trade, In-Form Electrical Data Communications with the co-operation our in house qualified WH&S practitioner have devised a detailed "Business COVID Safe" package aiming to assist with small to medium business operations during these uncertain and over whelming times.

Information has been collectively sourced using government websites in conjunction with 'Safe Work Australia COVID hub' in addition to 'WorkSafe COVID hub'.

This package comprises of:

- Guidelines i.e. hygiene, social distancing and general health and safety
- Detailed instructions for compliance
- Signage / posters templates
- Checklists
- Recommendations

Whist focusing on:

- Employer / employee safety in the workplace
- Health and wellbeing
- Industry specific requirements

Due to the individual nature of each business, an onsite consultation can be arranged with site specific requirements and recommendations offered.
